

Oakley O-Frame MX Goggles

Designed using cutting-edge technology, these snowboarding goggles are great because they offer premium quality clear lens with anti-fog technology, a comfortable grip, and so much more. These glasses are a great fit for skiers and snowboarders.

Oakley O-Frame MX Goggles offer superior performance to skiers, snowboarders, and anyone involved in extreme snow sports.

The lens of these goggles are anti-fog, which means they will not distort your vision when you are on the slopes. The O-Frame on the glasses offers maximum view from the sides. The goggles also feature triple layer face foam and silicon lining for better fitting. The strap on the goggles offers a comfortable fit.

If you are looking for snowboarding goggles that are versatile, the Oakley O-Frame MX Goggles with clear lens are the right option. You can choose from three different lens tints.

The lens on the goggles are scratch resistant, ensuring your goggles remain in pristine condition for years. On the inside, its lined with silicon and triple-layer foam for improved grip and protection.
